Our Lebara plans are speed capped, which means your network speed is capped to a maximum speed of 150Mbps. These speeds are the maximum potential speeds that you may get access to. The actual network speed you experience may be slower and will vary depending on various factors including your device, location, available bandwidth and source of download.

### Data Bank

Up to 500GB unused data in a 30/35 day block may be banked into a Data Bank for use in the next 30/35 day block during the term of the plan, or if the plan is recharged or a new plan is purchased that includes a Data Bank (Data Bank plan) before the expiry date. If you recharge on an eligible Data Bank plan within 48 hours after plan expiry (grace period), you will be able to retain your Data Bank balance. After 48 hours, any unused data from your Data Bank will be lost. Data in the Data Bank cannot be used during the grace period. Your Data Bank is not activated until unused data has been banked. Only included data and bonus data can be banked into your Data Bank. Data Add-on data cannot be banked. Unused data in excess of 500GB expires on next recharge or expiry date, whichever is earlier.

### Data Gifting

You may gift up to a total 10GB within a rolling 30 day period from your Data Bank to any other Australian Lebara customers who are on a Data Bank plan with an activated Data Bank. A cap of 5 transfers per 24 -hour period, with a minimum of 50MB and a maximum of 2GB per transaction applies. Included and bonus data cannot be gifted until it has been banked into your Data Bank. Data from Data Add-ons cannot be gifted (only data from your Data Bank).

### Early termination charge

You can cancel whenever you want. There is no fee for cancellation. However, if you terminate the plan prior to the plan expiration, the plan price and any remaining credit will not be refunded. This does not limit any consumer protection rights or remedies you may have, including under the Australian Consumer Law.

### Stacking plans

We've designed our long-expiry plans to be 'stacked'. You can recharge with a long expiry plan and it will stack to your existing 28 day or long expiry plan. Your new 365 day expiry plan starts only once your current plan expires. You can stack Lebara plans up to 24 months maximum.

Minimum charge is the plan's price.
